# NEW HOLLAND PRODUCT LINE UP

## CR INSERTS

- Boronized Max Thresh at the front for longer wear
- Reversible and replaceable
- Customizable

## CHOPPER BLADES

- Stay Sharp Design
- Extended Life
- Tungsten Carbide Lasering

## CX MODEL CONCAVE

- Heavy duty steel frame eliminates bowing
- Available with or without awing plates
- Stainless steel replaceable wear edges for longer life

## GEN 2 HIGH INERTIA ENCLOSED CYLINDER

- High Inertia, enclosed design eliminates trash buildup & plugging
- Runs at a lower RPM to reduce fuel consumption
- Optional boronized bars for longer life
- Staggered bar design for optimal material flow, reducing the impact on the concave
